INDEX TO VOLUME 44

Acetaldehyde, Fixation of heavy carbon, by active juices. Abstract, 267

Acid-fast organisms, The demonstration of, by fluorescence microscopy. Abstract, 721

Acid production from carbon compounds by the genus *Pseudomonas*, Effect of nitrogen source on apparent. Abstract, 254

— production, The possibility of false interpretation in tests for, from carbohydrates due to peptone decomposition. Abstract, 147

Actinomyces coelicolor species-group, Agar-decomposing strains of the, 555

Actinomycetes, An azolithmin-like pigment produced by certain. Abstract, 261

—, A medium for the rapid cultivation of soil, 137

—, Bacteriostatic and bacteriolytic properties of, 571

Activated charcoal, Spore formation by *Bacillus subtilis* in peptone solutions altered by treatment with, 653

Acton, Flora, Barrett, Harle, and Hunter, Charles A. Abstract, 391

—, Wright, Evan and Hunter, Charles A. Abstract. (No abstract), 391

Aerobic and facultative bacteria, Utilization of twenty-one proprietary peptones by representative. Abstract, 391

— spore-forming bacilli, Studies of the common. II. Fermentation reactions in agar butt-slants, 163

Agar-decomposing strains of the *Actinomyces coelicolor* species-group, 555

Agar, Reclamation of used. Abstract. (No abstract), 148

Air analysis, A simple tube battery for use in bacterial. Abstract, 143

Air-borne bacteria in rooms and incubators, Methods of quantitative estimation of. Abstract, 258

— infection, Studies in the prevention of. Abstract, 142

— organisms, Bactericidal action of ultra violet radiation on, 85

Alcaligenes, Difficulties in defining the genus. Abstract, 721

— Validity of the genus, 353

Alcohols, The dehydrogenation of, by streptococci of group B, 523

Alkali-solubility test, A microscopic, for the identification of gonococcus colonies, 237

Alpha-naphthol color test for dihydroxyacetone and hydroxymaleic acid, 249

Amino acids and related compounds, The utilization of, by *Clostridium tetani*, 179

Anaerobes, Rapid demonstration of hemolysis due to, 507

Anaerobic bacteria of intestinal origin in synthetic media, Growth of non-sporulating. II. Essential components and additional growth stimulants. Abstract, 389

— metabolism of facultatively anaerobic species, Some observations on the. Studies on the luminous bacteria. II, 461

— plate cultures, A simplified method for. Abstract. (No abstract), 146

— plates, 619

— rod-shaped bacteria, Gram-positive non-sporulating, of the intestinal tract. III. Intra- and extra-group relationships, 301

Anderson, Thomas F., Mudd, Stuart, Polevitzky, Katherine and Kast, Clara C., 361

— and Umbreit, W. W., 317

Anson, M. L. Abstract. (No abstract), 394

Anti-bacterial action of surface active cations, Observations on the. Abstract, 394

— activity of sulfathiazole and its methyl derivative, Studies pertaining to the, 95

— substance, Cultural characteristics of *Penicillium notatum* in relation to the production of. Indication of the dual nature of the antibacterial substance, 469

Antibiosis in the elimination of *Phymatotrichum omnivorum* sclerotia from soil. Abstract, 141

Antibiotic action, Selective, of various substances of microbial origin, 373

— agents, The production of, by microorganisms and its significance in natural processes. Abstract. (No abstract), 145

Ascorbic acid, Action of intestinal micro-organisms on, 75
Ashenburg, Norman T. Abstract. (No abstract), 145
Auxanograms, Luminous bacterial, in relation to heavy metals and narcotics, self-photographed in color, 703
Azochloramid and sulfonamides, Effects of, in localized infections of man. Abstract, 261
Azolithmin-like pigment, An, produced by certain *Actinomycetes*. Abstract, 261
Azotobacter, Hydrogen in the metabolism of, 250
—, Hydroxylamine as an inhibitor for oxidations by. Abstract, 256

Bachelor, Harold W. Abstract, 258
Bacillus albolactis, Dissociation of. Abstract, 147
Bacillus, Current investigations on an improved key to the genus. Abstract. (No abstract), 145
Bacillus larvae, White, Growth factor requirements of, 185
— *mesentericus* group, Physiological differentiation of members of the. Abstract, 147
— *subtilis*, Spore formation by, in peptone solutions altered by treatment with activated charcoal, 653
— *subtilis*, The status of, including a note on the separation of precipitinogens from bacterial spores, 611
Bacterial cell, The polyphasic potencies of the; its general biologic and chemotherapeutic significance, 1
— cell, The use of the electron microscope in the study of the structure of the. Abstract. (No abstract), 723
Bacteriological control at Anheuser-Busch, Inc. Abstract, 623
Bacteriophage of Type A, B, C or D, Technique for the determination of the sensitivity of a strain of streptococcus to, 207
Bacteriostatic and bacteriolytic properties of actinomycetes, 571
— effect, Quantitative determination of the, of the sulfonamide drugs on pneumococci, 277
Bacterium necrophorus septicemia in man. Abstract, 390
— *salmonicida*, The disinfection of trout eggs contaminated with, 111
— *salmonicida*, The disinfection of trout eggs contaminated with. Abstract. (No abstract), 255
Baisden, Louis and Yegian, Diran, 667
Baker, Albert, Irons, J. V., and Bohls, S. W. Abstract. (No abstract), 139
Baker's yeast, The commercial production of. Abstract, 623
Baldwin, I. L., and Roberts, James L., 653
Barrett, Harle, Acton, Flora, and Hunter, Charles A. Abstract, 391
Bartholomew, W. V., and Norman, A. G. Abstract, 257
Barton, J. C., and Green, R. G. Abstract, 253
Beams, H. W., and King, R. L., 597
Bender, Richard, and Levine, Max. Abstract, 254
Benzoic acid, The effect of, and related compounds on the growth of certain mycobacteria, 385
Bergey Manual, Proposed changes in the outline classification for the next edition of the. Abstract. (No abstract), 722
Bernheim, Frederick, 533
— and Saz, Arthur K., 385
Berry, Caroling. Abstract, 145
Birtha, Herbert, Brewington, Velma, Green, Alethia, Quivers, William, and Riddick, Lilly. Abstract. (No abstract), 146
Bixler, D. A., Georgi, C. E., Militzer, W. E., and McCall, K. B. Abstract, 390
Blastomyces dermatiditis, The effect of various substances on the oxygen uptake of, 533
Boerner, Fred, Lukens, Marguerite, and Ellis, Alice. Abstract. (No abstract) 144
Boerner-Jones-Lukens macroflocculation test, The, with spinal fluid. Abstract. (No abstract), 144
Boerner-Lukens Wassermann test, The, with spinal fluid with special reference to the use of egg albumin. Abstract. (No abstract), 144
Bohls, S. W., Irons, J. V., and Albert, Dorothy. Abstract. (No abstract), 139
Bohonos, Nestor, Hutchings, B. L., and Peterson, W. H., 479
Borden, D. G. and Kulp, W. L., 673
Bornstein, S., 719
Bottcher, Elizabeth J., and Conn, H. J., 137

Bradford, W. L., and Brooks, Anne M. Abstract, 260
Braun, Armin C., and Elrod, R. P., 633
Bray, William E. Abstract. (No abstract), 146
— and Carter, Jeanette S. Abstract. (No abstract), 146
Breed, Robert S. Abstract. (No abstract), 722
Brewington, Velma, Birtha, Herbert, Greene, Alethia, Quivers, William, and Riddick, Lilly. Abstract. (No abstract), 146
Bronson, L. H., Jr., and Parker, R. F. Abstract, 258
Brooks, Anne M., and Bradford, W. L. Abstract, 260
Brucella abortus, Microbial antagonism and. Abstract, 143
Brucella, Accessory growth factor requirements of, Abstract. (No abstract), 139
— opsonocytophagic test, A new staining procedure for the. Abstract. (No abstract), 141
Brucellosis, Porcine, in New York State. Abstract. (No abstract), 722
Bruner, D. W., and Edwards, P. R., 289
Bucher, Carl J. Abstract. (No abstract), 143
Buhler, Victor B., Seely, Clark W., and Dixon, Dorothy, D. Abstract, 390
Burdon, Kenneth L., Stokes, Julia C., and Kimbrough, Cecil E., 163
Burnet, F. M., and Faris, Dorothy D., 241
Bushnell, L. D. Abstract, 393
Butylene glycol, Bacterial oxidation of 2,3-. Abstract, 257

Campbell, J. J. R., and Gunsalus, I. C. Abstract, 721
Campbell, Thressa E. Abstract. (No abstract), 261
Cantor, A., Shelanski, H. A., and Willard, C. Y., 237
Carbohydrates, Fermentation of some simple, by members of the *Pseudomonas* genus. Abstract, 387
Carcinogenic hydrocarbons, The effect of certain, on the growth rates of *E. coli* and *S. aureus*. Abstract, 394
Carotenoid pigments, The isolation and absorption spectrum maxima of bacterial, 265
Carpenter, C. M., Stokinger, H. E., and Charles, R. C. Abstract, 261
Carter, Jeanette S., and Bray, William E. Abstract. (No abstract), 146
Cartwright, K. L. Abstract, 623
Carver, Clifford M., Johnson, Frank H., and Harryman, W. K., 703
Caseolytic bacteria, The heat resistance of mixed cultures of *Streptococcus thermophilus* and certain. Abstract, 389
Cations, Observations on the anti-bacterial action of surface active. Abstract, 394
Central New York Branch, S.A.B. Proceedings, 260, 721
Chambers, Leslie A., and Henle, Werner. Abstract. (No abstract), 142
Chapman, Orren D., and Osborne, Winifred, 620
Charles, R. C., Stokinger, H. E., and Carpenter, C. M. Abstract, 261
Chorio-allantoic membrane, Bacterial invasion of the. Abstract, 393
— membranes, Demonstration of the titration of various viruses on. Abstract. (No abstract), 394
— virus titration, The technique of quantitative, 241
Chorio-allantois, chick, Cultures on the, as a test of inactivation of vaccinia virus, 413
Chromobacterium violaceum, var. manilae as a pathogenic microorganism, 509
Citric acid, Fermentation of, by homofermentative lactic acid bacteria. Abstract, 721
Clark, Francis E., and Mitchell, Roland B. Abstract, 141
— and Mitchell, Roland B., 529
Clifton, C. E., 179
Clostridium butylicum preparations, Pyruvic acid dissimilation by cell-free. Abstract, 256
— *tetani*, The utilization of amino acids and related compounds by, 179
Coccidioidal granuloma, A case report of. Abstract. (No abstract), 140
Coccidium, A new, *Eimeria brunetti*, *N. sp.*, pathogenic for chickens. Abstract, 722
Coffee, W. B., Fitzgerald, R. J., and Orcutt, F. S. Abstract. (No abstract), 145
— and Orcutt F. S. Abstract, 147
CO_2, Fixation of, by a cell-free extract of *Escherichia coli*. Abstract, 256
Coli-aerogenes organisms in raw milk, A

comparison of media for the detection of. Abstract, 255
Coliform bacteria in milk, Comparison of methods for the detection of. Abstract. (No abstract), 147
Coli-like bacteria, Differentiation of the "intermediate," 487
Collins, Carolyn, Rubbra, Jean, and Kalter, Seymour. Abstract. (No abstract), 394
— and Sherwood, Noble P. Abstract, 392
Color variance, Influence of culture media and hydrogen-ion concentration on production of, in certain plant bacteria. Abstract. (No abstract), 148
Conn, H. J., 353
—. Abstract, 721
— and Bottcher, Elizabeth J., 137
Conn, Jean E. Abstract, 261
Corley, R. T., and Long, H. F. Abstract, 255
Corynebacterium, The composition of culture media as it affects the fermentation characteristics of. Abstract, 391
Crabmeat, The multiplication of bacteria in sterile. Abstract, 145
Crossman, G., and Loewenstein E. Abstract. (No abstract), 722
Culture media and hydrogen-ion concentration, Influence of, on production of color variance in certain plant bacteria. Abstract. (No abstract), 148
— media, The composition of, as it affects the fermentation characteristics of *Corynebacterium*. Abstract, 391
Cytology of *Spirillum volutans*, Ultracentrifugation and, 597
Cytophagas, soil, Observations on some. Abstract, 256

Death rates, Bacterial, and decimal reduction time. Abstract. (No abstract), 722
Decimal reduction time, Bacterial death rates and. Abstract. (No abstract), 722
Delves, Edna, and Youmans, Guy P., 127
Dermacentor andersoni Stiles, The microbial flora of the Rocky Mountain wood tick, 397
Detergents, The effects of, on proteins, viruses, and bacteria. Abstract. (No abstract), 394
Diachun Stephen, Valleau, W. D., and Johnson, E. M. Abstract, 387
Dick, Leo A., and McCullough, N. B. Abstract. (No abstract), 139, 141
Dienes, L., 37
Dihydroxyacetone and hydroxymaleic acid, Alpha-naphthol color test for, 249
Diplococcus pneumoniae and *Hemophilus influenzae*, Serological relationships between, 620
Dishes, Bacteriological study of machine and handwashed, at Haskell Institute. Abstract, 390
Disinfectants, Unexpected action of some. Abstract. (No abstract), 722
Disinfection of the hands, Distribution of bacteria around the nails and on the skin in relation to. Studies in surgical bacteriology. I. Abstract. (No abstract), 142
— of trout eggs contaminated with *Bacterium salmonicida*, 111
Dixon, Dorothy D., Buhler, Victor B., and Seely, Clark W. Abstract, 390
Doudoroff, Michael, 451, 461
Doull, J. A., Kramer, M., Toomey, J. A., and Knapp, H. J. Abstract. (No abstract), 258
Downs, Cora M. Abstract, 392
Downs, Cornelia, and Kalter, Seymour S. Abstract, 393
Drea, W. F., 149
Dubois, A. S., and Valko, E. I. Abstract, 394
Dunham, W. G., and MacNeal, Ward J., 413
Durfee, Olive, 589

Eastern Missouri Branch, S.A.B. Proceedings, 623
— Pennsylvania Branch, S.A.B. Proceedings, 142
E. coli and *S. aureus*, The effect of certain carcinogenic hydrocarbons on the growth rates of. Abstract, 394
— Methionine made an essential growth factor by cultivation of, in the presence of methionine and sulfanilamide, 717
Edwards, P. R., and Bruner, D. W., 289
Egg albumin denatured in various ways, Chemical, physical and immunological properties of. Abstract, 395
— albumin, The Boerner-Lukens Wassermann test with spinal fluid with special

reference to the use of. Abstract. (No abstract), 144
Egg white, Bacteriological studies on the "natural" fermentation process of preparing, for drying, 541
— white, Studies of bacteria from fermenting, and the production of pure culture fermentations, 625
Eimeria brunetti, *N. sp.*, A new coccidium, pathogenic for chickens. Abstract, 722
Elasticotaxis, A note on, in myxobacteria, 405
Electron microscope, A study of *Thiobacillus thiooxidans* with the, 317
— microscope, Bacterial morphology as shown by the. III. Cell-wall and protoplasm in a strain of *Fusobacterium*, 361
— microscope, Microdiplococci in filtrates of natural and experimental poliomyelitic virus as revealed unstained by the, and, after special staining, by the light microscope. Abstract, 253
— microscope, The use of the, in the study of the structure of the bacterial cell. Abstract. (No abstract), 723
Ellis, Alice, Boerner, Fred, and Lukens, Marguerite. Abstract. (No abstract), 144
Elrod, R. P., 433
— and Braun, Armin C., 633
Encephalitis. Abstract. (No abstract), 148
Encephalitis virus, Histologic adaptation of the fox. Abstract, 253
Epidemic kerato-conjunctivitis. Abstract. (No abstract), 395
Erwinia-coliform relationship, The, 433
Escherichia coli, Fixation of CO_2 by a cell-free extract of. Abstract, 256
E. typhosa, A study of two atypical strains of, 647
Evans, Alice C., 207
— and Sockrider, Elsie M., 211

Fabian, F. W., and Nunheimer, T. D., 215
Faris, Dorothy D., and Burnet, F. M., 241
Fellers, C. R., Tarkow, L., and Levine, A. S., 367
Felton, Lloyd D. Abstract. (No abstract), 148
Fenske, M. R., Stone, R. W., and White, A. G. C., 169
Ferguson, Frederick F., Holmes, Jane, and Lavor, Edward. Abstract. (No abstract), 145
Fermentation characteristics of *Corynebacterium*, The composition of culture media as it affects the. Abstract, 391
—, Nitrate in plants and its significance in. Abstract. (No abstract), 721
— process, Bacteriological studies on the "natural," of preparing egg white for drying, 541
— reactions in agar butt-slants. Studies of the common aerobic spore-forming bacilli. II, 163
— vessel, A, for thermogenic studies with pure culture. Abstract, 257
Fermentations, pure culture, Studies of bacteria from fermenting egg white and the production of, 625
Fibroma virus, Transformation of, to that of infectious myxoma. Abstract. (No abstract), 145
Figs, souring, Yeasts occurring in, 441
Fitzgerald, R. J., Coffee, W. B., and Orcutt, F. S. Abstract. (No abstract), 145
Fluorescence microscopy in bacteriology. Abstract. (No abstract), 722
— microscopy, The demonstration of acid-fast organisms by. Abstract, 721
Food, Preliminary report on a survey to determine the bacteriological condition of utensils in the service of. Abstract. (No abstract), 391
Formic acid, Factors affecting the production of, by streptococci. Abstract, 260
Foshay, L., Hesselbrock, W. H., Wittenberg, H. J., and Rodenberg, A. H. Abstract, 259
Fowler, Russel H. Abstract. (No abstract), 142
Frazier, W. C., and Voss, J. G. Abstract, 255
Fuller, W. H., and Norman, A. G. Abstract, 256
Fungus infections, Laboratory procedures in the diagnosis of certain. Abstract. (No abstract), 145
— serology, Notes on. Abstract, 140
Fusobacterium, Cell-wall and protoplasm in a strain of. Bacterial morphology as shown by the electron microscope. III, 361

Gaines, Sidney, and Stahly, Grant L. Abstract, 259

Galacturonic acid, a constituent of a bacterial gum. Abstract, 390
Gas gangrene anaerobes, Nitrate, nitrite and indole reactions of, 425
— ratio, The, and some correlated distinguishing properties of bacteria of the genus *Proteus*, 687
—, The composition of, from experimental silos. Abstract. (No abstract), 262
Gee, Lynn L., and Sarles, W. B., 111
— and Sarles, W. B. Abstract. (No abstract), 255
Genetics of yeast. Abstract, 623
Georgi, Carl E., and McMaster, Margaret. Abstract, 391
—, Militzer, W. E., McCall, K. B., and Bixler, D. A. Abstract, 390
— and Rose, K. D. Abstract, 388
Germicidal properties, The, of soaps. Abstract. (No abstract), 143
Gingrich, Wendell and Schlenk, Fritz. Abstract, 139
Glanders organism, The, with reference to cell inclusions. Abstract, 141
Globiforme and related types of soil microorganisms, Cell inclusions of, 529
Glucose and sucrose sirups, Relative inhibition of microorganisms by, 367
Glycerol, A bacteriological comparison between synthetic and natural, 233
Godfrey, G. F., and Winter, A. R. Abstract, 258
Gonococcus colonies, A microscopic alkali-solubility test for the identification of, 237
—, Some aspects of nutritional variation of the. Abstract, 139
—, The role of p-aminobenzoate in experimentally developed sulfanilamide-fastness in the. Abstract, 261
Goresline, Harry E., and Stuart, L. S., 541, 625
Gowen, John W., and Lincoln, Ralph E., 551
Gramicidin and tyrocidine, The effect of, on various bacteria. Abstract, 392
Green, R. G., and Barton, J. C. Abstract, 253
Greene, Alethia, Birtha, Herbert, Brewington, Velma, Quivers, William and Riddick, Lilly. Abstract. (No abstract), 146
Grim, Kenneth B. Abstract, 146
Gross, Noel H., Wood, H. G., and Werkman, C. H. Abstract, 257
Gunsalus, I. C., and Campbell, J. J. R. Abstract, 721
— and Niven, C. F., Jr. Abstract, 260
— and Wood, A. J., 333, 523

Hansen, H. N., Mrak, E. M., Phaff, H. J., and Vaughn, R. H., 441
Harris, Jerome S., and Kohn, Henry I., 717
Harris, William H., and Schattenberg, Herbert J., 509
Harrison, Norman B., Turner, William J., and Kress, Bernard H., 249
Harryman, W. K., Johnson, Frank H., and Carver, Clifford M., 703
Heat, Inactivation of myxoma virus by. Abstract, 258
—, Relation of maximum growth temperature to resistance to, 29
— resistance of bacteria, A study of certain factors which influence the apparent. Abstract, 389
— resistance of *Lactobacillus bulgaricus*, Influence of growth at low temperature on. Abstract, 255
— resistance, The, of mixed cultures of *Streptococcus thermophilus* and certain caseolytic bacteria. Abstract, 389
Heidelberger, M., McPherson, C. F., and Moore, D. Abstract, 395
Hemolysis due to anaerobes, Rapid demonstration of, 507
Hemophilus influenzae, horse serum, On the occurrence of Type VI pneumococcal antibodies in anti-. Abstract, 722
— *influenzae*, Serological relationships between *Diplococcus pneumoniae* and, 620
Henle, Werner, and Chambers, Leslie A. Abstract. (No abstract), 142
—, Sommer, Harriet E., and Stokes, Joseph, Jr. Abstract, 142
Hesselbrock, W. H., Foshay, L., Wittenberg, H. J., and Rodenberg, A. H. abstract, 259
Histamine-azo-protein conjugate, Immunologic specificity of a. Abstract, 259
Hofer, A. W., and McNew, G. L. Abstract, 262
Holmes, Jane, Ferguson, Frederick F., and Lavor, Edward. Abstract. (No abstract), 145
Holt, R. A., and Reid, J. D. Abstract. (No abstract), 145
Houlihan, Ralph B. Abstract. (No abstract), 145

Houlihan, Ralph B., and Lawson, George McL. Abstract. (No abstract), 146
Hunter, Charles, A., Barrett, Harle, and Acton, Flora. Abstract, 391
— and Victor, Frank. Abstract, 392
—, Wright, Evan and Acton, Flora. Abstract. (No abstract), 391
Hutchings, B. L., Bohonos, Nestor, and Peterson, W. H., 479
Hydrogen in the metabolism of *Azotobacter*, 250
Hydrogen-ion concentration, Influence of culture media and, on production of color variance in certain plant bacteria. Abstract. (No abstract), 148
Hydroxylamine as an inhibitor for oxidations by *Azotobacter*. Abstract, 256

Immunologic specificity of a histamine-azoprotein conjugate. Abstract, 259
Influenza, Studies on the nature of the virus of. Abstract. (No abstract), 142
Inhibition, Relative, of microorganisms by glucose and sucrose sirups, 367
Inorganic salts, The effect of, on the production of small colony variants by *Staphylococcus aureus*, 127
Intestinal microorganisms, Action of, on ascorbic acid, 75
— tract, Gram-positive, non-sporulating anaerobic rod-shaped bacteria of the. III. Intra- and extra-group relationships, 301
Irons, J. V., Bohls, S. W., and Albert, Dorothy. Abstract. (No abstract), 139

James, L. H., and Young, Raymond M., 75
John, Mildred B. Abstract. (No abstract), 140
Johnson, E. M., Valleau, W. D., and Diachun, Stephen. Abstract, 387
Johnson, Frank H., Carver, Clifford M., and Harryman, W. K., 703
Johnson, Marvin J., and Koepsell, H. J. Abstract, 256
Jones, Lloyd R., Muir, R. D., and Shamleffer, V. J., 95

Kakavas, J. C. Abstract, 262
Kalnitsky, George, and Werkman, C. H. Abstract, 256
Kalter, Seymour S., and Downs, Cornelia. Abstract, 393
—, Rubbra, Jean and Collins, Carolyn. Abstract. (No abstract), 394
Kast, Clara C., Mudd, Stuart, Polevitzky, Katherine and Anderson, Thomas F., 361
Katzin, Leonard I. Abstract, 146
— and Sandholzer, L. A. Abstract. (No abstract), 722
Kentucky Branch, S.A.B. Proceedings, 387
Kimbrough, Cecil E., Burdon, Kenneth L., and Stokes, Julia C., 163
King, John W., and Rettger, Leo F., 301
King, R. L., and Beams, H. W., 597
Knapp, H. J., Kramer, M., Toomey, J. A., and Doull, J. A. Abstract. (No abstract), 258
Knaysi, Georges. Abstract. (No abstract), 723
Kocholaty, Walter. Abstract, 143, 469
Kodachrome photomicrography. Abstract. 146
Koepsell, H. J., and Johnson, Marvin J. Abstract, 256
Kohn, Henry I., and Harris, Jerome S., 717
Kolmer, John A. Abstract, 144
Kramer, M., Toomey, J. A., Knapp, H. J., and Doull, J. A. Abstract. (No abstract), 258
Kreke, Cornelius W., and Nutini, Leo G., 661
Kress, Bernard H., Turner, William J., and Harrison, Norman B., 249
Kulp, W. L., and Borden, D. G., 673

Lactic acid bacteria, Fermentation of citric acid by homofermentative. Abstract, 721
— acid bacteria, Pyridoxine nutrition of, 479
Lactic-acid-producing organisms, The riboflavin requirements of certain strains of. Abstract. (No abstract), 261
Lactobacillus bulgaricus, Influence of growth at low temperature on heat resistance of. Abstract, 255
Lamanna, Carl, 29, 611
Landerkin, G. B., and Lochhead, A. G., 343
Lankford, C. E. Abstract, 139
Large bodies, The significance of the, and the development of L type of colonies in bacterial cultures, 37
Larsen, Don H., and Lewis, Keith H. Abstract, 389
Lavor, Edward. Abstract. (No abstract), 145
— Ferguson, Frederick F., and Holmes, Jane. Abstract. (No abstract), 145

Lawson, George McL. Abstract, 145
— and Houlihan, Ralph B. Abstract. (No abstract), 146
Leake, James P. Abstract. (No abstract), 148
Legume bacteria, Application of, to chemically treated pea seed. Abstract, 262
— roots, Some experiments on the excretion of nitrogen compounds from. Abstract, 388
Leikind, Morris C. Abstract. (No abstract), 148
Leptospirosis, Preliminary survey of, in Minnesota. Abstract, 254
Leszynski, Werner. Abstract. (No abstract), 143
Leuconostoc mesenteroides, Nutritional requirements for growth of. Abstract, 259
Levine, A. S., Tarkow, L., and Fellers, C. R., 367
Levine, Max, and Bender, Richard. Abstract, 254
— and Vaughn, Reese H., 487
Levine, P. P. Abstract, 722
Lewis, Keith H., and Larsen, Don H. Abstract, 389
Light microscope, Microdiplococci in filtrates of natural and experimental poliomyelitic virus as revealed unstained by the electron microscope and, after special staining, by the. Abstract, 253
Lincoln, Ralph E., and Gowen, John W., 551
Lindegren, C. C. Abstract, 623
Lochhead, A. G., 185
Lochhead, A. G., and Landerkin, G. B., 343
Loessial subsoil, The influence of microorganisms and biological products on the physical properties of a. Abstract, 388
Loewenstein, E., and Crossman, G. Abstract. (No abstract), 722
Long, H. F., and Corley, R. T. Abstract, 255
L type of colonies in bacterial cultures, The significance of the large bodies and the development of, 37
Lucas, A. M. Abstract. (No abstract), 253
Lukens, Marguerite, Boerner, Fred, and Ellis, Alice. Abstract. (No abstract), 144
Luminous bacteria, Studies on the. I. Nutritional requirements of some species, with special reference to methionine, 451
— bacteria, Studies on the. II. Some observations on the anaerobic metabolism of facultatively anaerobic species, 461
